

RAHUL PARAMANIK

ABOUT ME

I am Rahul Paramanik, a highly motivated and industrious 2nd-year BCA student with a strong passion for technology and a proven dedication to my studies. I am currently developing a robust skill set in computer applications and software development, with a particular emphasis on web development and programming. I am eager to apply my knowledge and skills to create innovative and effective solutions.

PROJECTS

LIBRARY-MANAGEMENT

Made by HTML, CSS, JavaScript, PHP, MYSQL

- Developed a comprehensive Library Management System using HTML, CSS, JavaScript, and PHP, with a MySQL database, to automate and streamline library operations. This project provides a user-friendly interface for managing book catalogs, member information, and borrowing/return transactions.

VIRTUAL ASSISTANT

- Developed a virtual assistant using HTML, CSS, and JavaScript to provide users with interactive assistance. Key features include voice recognition, natural language processing, and task automation. This project showcases the ability to create user-friendly and responsive applications that enhance productivity and user experience.

ONLINE-RESTURENT

- Developed an online restaurant platform using HTML, CSS, and JavaScript to enable users to browse menus, place orders, and manage reservations. This project showcases the ability to create user-friendly and responsive web applications for the food service industry.
